CAREER OBJECTIVE

Computer Science and Engineering undergraduate with a CGPA of 7.78, interested in cybersecurity, software development, web development, and programming. Skilled in Python, Java, C, SQL, and web technologies, with practical project experience in security log analysis, password strength evaluation, and web application security testing. Eager to apply analytical thinking, problem-solving, and technical skills to real-world engineering challenges.

EDUCATION

KL University — B.Tech in Computer Science and Engineering

2023–2027 | Vijayawada, Andhra Pradesh | CGPA: 7.78/10

DePaul Junior College — Intermediate (MPC)

2021–2023 | Berhampur | 67%

St. Vincent Convent School

82%

TECHNICAL SKILLS

Programming: Python, Java, C

Frontend: HTML, CSS, ReactJS

Backend: Node.js, Spring Boot

Databases: DBMS, SQL

Tools & Platforms: Git, GitHub, Linux, VS Code, WSL2

Cybersecurity: SOC operations, log analysis, threat detection, vulnerability assessment, web application security testing

PROJECTS

SecureCorp Security Assessment Engagement | Cybersecurity Capstone

- Performed security testing in a controlled lab environment using Nmap, DVWA, and Metasploitable2.
- Tested and documented web application security issues involving SQL injection, cross-site scripting (XSS), brute-force testing, and command injection.
- Organized assessment evidence and project documentation using Git and GitHub.
- GitHub: [securecorp-security-assessment](https://github.com/2300030561/securecorp-security-assessment)

SOC Log Analyzer | Security Operations Center Project

- Developed a Python-based tool to parse and analyze security logs, identify suspicious activity, and produce structured reports for investigation.
- Applied networking and security concepts to support event analysis and threat detection.

Password Security Analyzer

- Built a web-based tool that evaluates password strength using length, character variety, and common-pattern checks.
- Designed a responsive interface using HTML, CSS, and JavaScript.

Responsive Login & Registration Page

- Created responsive login and registration forms with basic validation and a clean user interface using HTML and CSS.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- NPTEL: Data Structures Using Java
- Automation Anywhere Certified: RPA

LEADERSHIP & ACHIEVEMENTS

- Completed hands-on academic and lab-based work involving security log analysis, network security, vulnerability assessment, and web application testing.
- Maintained technical project evidence and documentation using Git/GitHub.
- Demonstrated analytical thinking and troubleshooting skills while working with development and security tools.
